Illustration by Jennifer Desmarais

Careful Clara is my name, farming safety is my game.
On a farm, you can have fun. There is room to play and run.
Careful Clara says to you, put safety first in all you do.

Farms are special 'cause they give
a place for cows and pigs to live.
Some animals are big and tall;
some are cute and some are small.

Animals are fun to see,
but you must act carefully.
If you scream or talk loudly,
animals will act wildly.

Lighters, matches aren't for play,
especially in a barn with hay.
Fire in hay will quickly spread,
burning all the animals' beds.

HELP YOUR PARENTS DRAW A SAFE ESCAPE.

Smoke is quiet as a mouse.
Are smoke alarms in you house?
If you hear the alarms, then race
to the preplanned safety place.

MATCH THE SAFETY ITEMS.

1. Apron
2. Rubber boots
3. Hat
4. Rubber gloves
5. Facemask respirator
6. Eye goggles
7. Coveralls

In protective clothing hide
when you handle pesticides.
Please help safety man get dressed.
Match the items and do your best.

Chemicals and pesticides
can make you feel sick inside.
If it's a warning sign you see,
it is saying, "Don't bother me!"

Kentucky Regional Poison Center
of Kosair Children's Hospital
P.O. Box 35070
Louisville, KY 40232-5070

When the leaves turn upside down,
when the storm clouds gather 'round,
These are signs to go inside
where you're safe and warm and dry.

Protect hearing by wearing
ear muffs or ear plugs.

Never fly a kite near
electrical power lines.

Kids need to have safety training
before they operate an ATV!!

Don't climb in trees near
electrical power lines.

GRAIN SUFFOCATION

...it only takes a few seconds

Let's play in the grain!
But Momma said not to play in
any grain wagons.

Come on! Jump in! It's so much
fun to feel the grain. Come on,
jump!!!

Help! Help! I am sinking in!
Sally, what are you doing down
there?!

I am letting the grain out,
because I don't like to climb
ladders.

Help! Help me! Joe is sinking in
the grain! He is almost covered
up!

I am running for help...

Keep your hands
and feet inside.

ROPS and seat belts
will save lives.

Only ride if there's a seat.

PTO's will grab and eat.

When around a pond or lake,
attach a float to a stake.
Don't go swimming, don't ice skate,
unless an adult says, "It's safe."

Who mooves you to think safely?
Connect the dots and you will see.

Now you've learned these safety rules.
Help the worm find his way through.

NOTES

Connect the dots and you will see
who mooves you to think easy!

NOTES

Congratulations!

Color and cut out your certificate.
